

Professional Practice Day
Monday 20 June
Student Free Day

Dear Parents and Carers.

A Professional Practice Day for teachers will be held on the 20th of June. That is, the 20th of June will be a student free day. Professional Practice Days are part of the agreement the government has with teachers to enhance their professional development. Usually, they are held on a range of days over the term, with a CRT taking the class. This term, the department has decided that due to staff replacement shortages (due to COVID) teachers can use the same day for their Professional Practice Day.

We have chosen the 20th of June as our Professional Practice Day. That means that on Monday 20th of June students are not required at school as teachers will not be running classes.

I apologise for any inconvenience this may cause. I am giving you advance notice so that you have adequate time to make arrangements to support your child.

Any queries please contact the school on: (03) 5975 6111.

Regards

David.
