

Monday, 15 July 2024

Good afternoon parents.

Welcome back to the first day of Term 3, 2024.

More importantly welcome back to the new school building site. The senior and junior playgrounds have been demolished but we have replacement areas for seniors and juniors – just no basketball court. All classrooms for school age students will remain the same, that is no classes have been moved around except for Early Education.

The Westernport buses will now drop off and pick up students from the front of the area where the school bus used to be parked. Staff will meet and escort all students coming off the bus to their classroom and going from their classroom to the bus.

As the weather prediction for the rest of the week is cold and wet – like this morning, please dress your children in wet weather gear. We know some students won't wear wet weather clothing so please note that we escort all students to and from their classroom under the cover of umbrellas.

To reach the main office you need to go to the area where our school bus used to be parked – enter through the gate and follow the path, (there is another gate to go through that will be locked) keep following the concrete path and go up the ramp to the classrooms. Turn sharp right and the first door you come to is the entrance to the new office.

We have put up a video on Facebook showing you the new way to enter the school.

To make things easier please call the office just before you arrive, and we will come out and open gates and escort you to the office. The best number to contact us on is: (03) 5975 6111.

We are hoping to have an intercom system installed at the front gate soon.

Any queries please contact me.

Kind regards

David

Principal, Mornington SDS
